

**NEW YORK STATE THRUWAY AUTHORITY
CONSULTANT INSTRUCTION**

SUBJECT: AUDITED OVERHEAD RATES

DATE: November 2, 2006 CODE: 06-6 SUPERSEDES: 01-10

APPROVED:

CHRISTOPHER A. WAITE, P.E.
Chief Engineer

CONTACT: Director, Bureau of Fiscal Audit

PHONE: (518) 471-4336

DISTRIBUTION: All

Under standard engineering agreements (Cost + Fixed Fee agreements), the Authority will pay Engineer an overhead allowance to cover overhead and administrative time.

For each agreement, the Authority must first review and if necessary negotiate the Engineer's maximum overhead rate to be paid in the agreement (contract). The Authority requests that a current NYSDOT approved CONR 385 be submitted. If one is not available, the Authority may accept any government agency audited rate or Certified Public Accountant's prepared overhead report providing the basis of the overhead calculation is in accordance with Federal Acquisition Regulations (subpart 1-31.2 as modified by subpart 1-31.105) and Authority policy (such as specifically limiting the salary and bonuses paid to Engineer above the Chief Engineer's salary). Other reasonable representations may be accepted at the Authority's discretion.
